TO WHOM SO - EVER IT MAY CONCERN

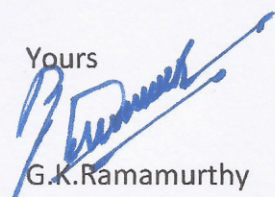

Dr.K.Ravishankar, Founder Usha Kiran Eye Hospital Mysuru and a prominent ophthalmic surgeon has been doing exceptionally compassionate humanitarian service in the field of eye care alongwith his Dr.wife Uma Ravishankar also a highly qualified ophthalmic surgeon. GKR foundation has known Dr.Ravishankar right from the early 2001 onwards when he had a humble setup in Mysure for treating patients with eye care diseases of various etiology.

Dr.Ravishankr along with his wife Dr.Uma Ravishankar has been conducting out-reach eye camps in and around Mysuru reaching out to the poorest of the poor for eye care treatment. The scope of his work has been vast, extending to screening of thousands of school children for eye defects providing them with treatment and glasses and his focus has been to create awareness about good eye health in children and also and preventing complications. It is difficult to quantify how many thousands of patients he would have treated and on how many hundreds' of patients he would have performed complicated surgeries restoring vision and preventing blindness. He has covered patients of all age group right from the children to elderly. As though this is not enough, Dr.Ravishankar has been, regularly visiting a few backward African countries where he has performed eye surgeries for the poor. It is important to note that all his efforts has been on purely humanitarian grounds, treating patients free of cost. It is important to mention that making a humble beginning some time around early 2000 Dr.Ravishankar has been selflessly and passionately pursuing his vision of providing eye care to the poorest of the poor.

GKR Foundation has been privileged to provide some sort of financial support to Usha Kiran Trust, Founded by Dr.Ravishankar and the fact remains that what we have given is a grain of sand and he moved the mountains himself!

We wish him continuous success in his humanitarian work in the field of eye care and wish him and his wife Dr.Uma Ravishankar good health and long life.

Yours

G.K.Ramamurthy
Chairman
