

MEDICAL AND OPTICAL AID (BRADFORD) UK

53 NORLAND STREET, BRADFORD, BD7 4DY, UK.

To whom it may concern,

I have known Dr Ravishanker and Dr Uma for over last 18 years. We as a voluntary organisation (called Medical and Optical Aid) are very fortunate to get connected with Dr Ravishanker and his team at Mysore. In last 18 years we managed to combine Optometry work and Ophthalmology work by way of joint venture eye care service projects in south India mainly in Mysore and the surrounding area. We as a Medical and Optical Aid took care of eye examination and provision of glasses. Ravishanker and his team dealt with referred Ophthalmological and surgical cases (ie cataract, squint, pterygium, retinal problems). Together we have managed to serve nearly over 5000 needy peoples with various eye related issues.

During those joint venture projects I have noticed that both Ravishanker and Uma have strong passion for serving needy, particularly young children with eye defects. Important aspect of his selfless service is, his voluntary work is not just limited to Mysore area (where he is based). He and his team also goes as a Rotary volunteers to African countries (like Ghana, Gambia, Zambia, Kenya, Nigeria etc). Both, Ravishanker and Uma are very good professional but also compassionate human beings. I am impressed by their dedication and devotion in rendering selfless service to needy.

Dr Ravishanker and his team deserve to be recognised for their untiring voluntary work in the field of eyecare for needy.

On behalf of Medical And Optical Aid (Bradford) UK,

Kantilal Mistry,
