

Sivasubramaniam

Technical Director

Institute of Process and Control Engineer

To whomsoever it may concern

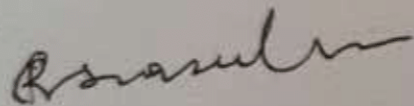

I consider myself extremely fortunate to have got the of acquaintance of Dr.Ravishankar few years back. As a part of my philanthropic activity I consider it a privilege to contribute to his charity.

Dr.Ravishankar and Dr.Uma have been using their knowledge and skills to help poor children gain their eye sight which was lost due to cataract at birth or very young age. They perform such extremely complex and expensive surgery, at free of cost.

They create awareness in the society about cataract by giving talks in Radio.

They also perform eye surgeries in foreign countries with poor population and train the Doctors there.

Dr.Ravishankar deserves to be recognized for the yeoman service rendered by him to poor children.
